

A knowledge organiser lists the necessary knowledge and vocabulary that the children should know by the end of the unit of work. Please work with your child at home to learn this information.

Science Knowledge Organiser Year 2

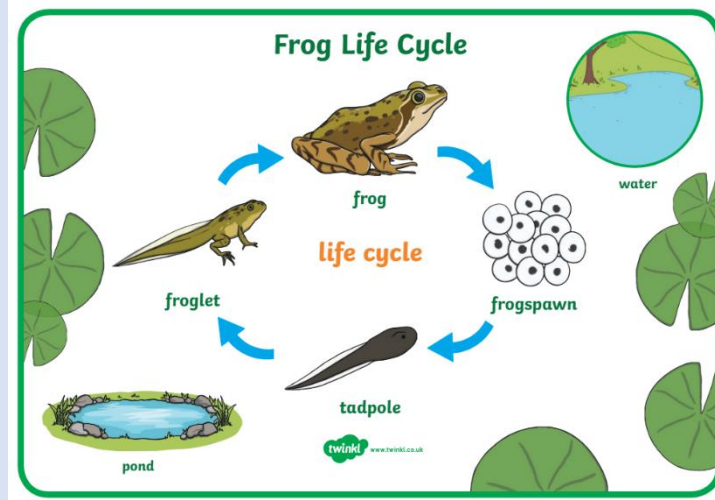

Animals including humans

Necessary Knowledge

- An evergreen tree keeps its green leaves all year round and a deciduous tree loses its leaves each year.
- Animals have offspring which develop and grow into adults.
- There are 6 stages to the human life cycle.
- Animals need air, food and water to survive and thrive.

Vocabulary

- Evergreen
- Deciduous
- Wild plants
- Garden plants
- Common
- Animals
- Baby/ offspring
- Adult
- Toddler
- Child
- Teenager
- Adult
- Elderly
- Lifecycle
- Humans
- Needs
- Survive/ thrive
- Frog
- Egg/ frogspawn
- Tadpole
- Froglet

Evergreen Trees:

Evergreen trees have green leaves all year round. Their leaves do not fall off or change colour in the autumn. Evergreen trees instead lose leaves gradually and not all at once.

Deciduous Trees:

Deciduous trees lose their leaves every year.

The leaves on deciduous trees change colour and fall off every autumn.

They usually have no leaves on their branches in the winter.
