

Science Knowledge Organiser Year 2

Living things and their habitats

A knowledge organiser lists the necessary knowledge and vocabulary that the children should know by the end of the unit of work. Please work with your child at home to learn this information.

Vocabulary

- Living
- Dead
- Non-living
- Growth
- Movement
- Nutrition
- Respiration
- Reproduce
- Animals
- Plants
- Habitats
- Microhabitats
- Survive
- Food
- Water
- Air (Oxygen)
- Shelter
- Food chain
- Prey
- Predator
- Producer
- Consumer

Necessary Knowledge

- The environment around us is full of living, dead and non-living things.
- Animals live in habitats appropriate to their needs. 
- A microhabitat is a small area within a larger habitat that smaller animals such as mini beasts live. 
- Every animal and plant needs food to live, and they are all part of a food chain.
